

Survivor-Replay Rules & Format

Our Replay feature (also referred to as “losers out” or “second chance”) is completely incorporated into our regular Survivor Pool. It is a TRUE second chance option as no player will even be able to register in Replay until they are OUT in the regular pool.

IMPORTANT TO KNOW: The Replay Pool will abruptly close when there are 250 “Confirmed” players. The order in which you register has no bearing on your status. It is completely based on the order in which players are confirmed, so don’t procrastinate. Here is how it works:

- A. In My Picks you will notice a column titled: Replay. Under this column there will be one of four (4) icons adjacent to each player.
 - 1. “Not Eligible” indicates the player cannot register for the Replay Pool.
 - 2. “Sign Up” indicates the player is eligible to register for the Replay Pool. Just click and follow the instructions.
 - 3. “Make Pick” indicates the player has successfully registered and confirmed to play in the Replay Pool which begins in Week 9. Click to make your weekly pick. It’s that simple!
 - 4. “Out” indicates the player has competed in the Replay Pool and has lost their pick. Each action taken should result in a confirmation email response to that player.
- B. As always, each Replay player receives ONLY 1 PICK. Picks cost \$20 each.
- C. The pool will officially begin in week 9.
- D. Mail entry fees to: Jim Young, 4801 S. 72nd St., Tacoma, WA 98409.
- E. ZELLE payments can be made to: Jim Young at (253) 278-0831 or dunna41@comcast.net.
- F. PAYPAL & VENMO are no longer acceptable forms of payment.

II **SPECIAL PICKING RESTRICTIONS** - True “Survivor” Format

- A. Players may only pick a team **ONCE** through the end of the regular season. Once a team is selected, that team will not appear as an option for that player the rest of the regular season.
- B. Players **MUST** select a road team in odd numbered weeks (11, 13, & 15 only). Home teams will not appear as an option in those weeks.
- C. There will be no “advance pick” option whereby players select teams in weeks not yet played.
- D. At the end of the regular season, all teams and pick restrictions will be lifted & reset. The remaining players may select teams throughout the playoffs without limitations & restrictions.

IV **ENDING THE REPLAY GAME**

- A. This game will end when there is one player left, or at the conclusion of the Super Bowl.
- B. If 6 or more players remain and ALL picks are lost in a single week, all players will be reinstated to live status and we will play on. If 5 or fewer players remain and ALL picks are lost in a single week, the game is over and the pot will be split accordingly.
- C. There will be no chopped pot options! WINNER or WINNERS will take all!
- D. All payouts will occur after the Super Bowl to coincide with the regular pool as well as all Super Bowl Boards.
