

MaxOut Contest Rules & Payouts

These contest rules are simple **AND** this game is played completely separate from our games of Survivor & Replay.

1. In this contest players must pick a winning team each week to collect points. Make this separate pick in "My Picks" under the "**MAXOUT**" column.
2. If you select a winning team, you will collect the number of points that team scored in their win. If the team you selected **loses, ties, or you fail to make a pick**, you will receive 0 points for that week. **REMEMBER:** this game is not associated with any other pick you make in either Survivor or Replay! It is a separate contest!
3. Players will **NEVER** "die", or be eliminated from this contest, and may play this game for the entire NFL Regular Season (18 weeks) regardless of your status in the other games.
4. Players may only select a team **ONCE** during the regular season. Teams already selected will not be a pick option.
5. At the conclusion of the regular season, the total points accumulated will determine the winners.
6. The number of players participating in this contest will determine the total prize pool. The top five (5) places will be paid:

1 st Place:	40%
2 nd Place:	30%
3 rd Place:	15%
4 th Place:	10%
5 th Place:	5%
7. Ties will be broken using a standard tournament tie-breaking formula. Payouts will be shared based on the players position in the tie. Example; if two (2) players tie for 3rd Place, 3rd & 4th Place payouts will be added together and divided by 2. The next paying position would be 5th Place.
8. All payouts are rounded down to the nearest whole dollar amount. Payout amounts will be posted at the start of the NFL season.
9. Good luck! If you have any questions or concerns regarding this contest, feel free to contact the Administrator:
